

## **An Open Letter to the United States Congress**

Dear Senators and Congressmen,

The Day of Reckoning is close at hand, and you must take a hard look in the mirror. In the wake of your dollar-busting spending and the Fed take-over of key industries, the United States lies at your feet, hobbled and bloody like a person whose leg has been forcibly severed. Yet even a person so crippled will eventually attempt to stand up, just as our Country struggles now. The so-called “recovery.” And you stand as well, ready to enact a health-care reform package that has more to do with Control than it does with health care, and ready to enact a Cap & Trade bill that has more to do with Control than it does with protecting the environment. You stand ready to pass these two unaffordable bills and drive knives deep into the heart of your Country as she struggles to stand.

Have you not heard the outcries: “Stop this madness!” Have you not heard the millions of voices? And you know we are millions – tens of millions – despite every media trick to downplay and dismiss, like claiming “Tens-of-thousands” were in Washington on September 12<sup>th</sup>. Try a million at least. You know this. And for each person attending there were dozens more who attended in spirit.

This groundswell of fear and resentment has but one cause, and it isn’t “race.” It’s your casual disregard for the very Constitution you’ve sworn an oath to protect and defend – the Country you profess to love and serve.

So take a long look in the mirror. No blinking. And ask how best you can honor the sacrifices Our Forefathers made to fashion a sublime Constitution and forge the Greatest Country on the face of this Earth. Granted, we are not without flaws, but will you preside over the end of this great experiment – declare the US a failure – by planting your knives? Because that’s what’s at stake with your votes. Is laying our Nation to rest what you’re here for, on this Earth at this time? Or will you Stand With Liberty and try to save Our Republic? May the Grace of God guide you.

Respectfully yours,  
We The People
